Congratulations and Next Steps

Congratulations on completing the Develop Generative AI Applications: Get Started course! We hope you enjoyed it and find great satisfaction using your new skills in the workplace or elsewhere.

This course is part of the **IBM RAG and Agentic AI Professional Certificate** ☒. This program provides technical knowledge and hands-on practical skills and industry experts contribute to every course using the latest tools and technologies. You'll complete this certificate program with the ability to use retrieval augmented generation and build multimodal and agentic applications.

Ready for your next steps? Consider enrolling in these courses next:

- **Build RAG Applications: Get Started** ☒

- **Vector Databases for RAG: An Introduction** [Coming Soon]

- **Advanced RAG with Vector Databases and Retrievers** [Coming Soon]

- **Build Multimodal Generative AI Applications** ☒

- **Fundamentals of Building AI Agents** [Coming Soon]

- **Agentic AI Fundamentals with LangChain and LangGraph** [Coming Soon]

- **Agentic AI with LangGraph, CrewAI, AG2, and BeeAI** [Coming Soon]

We also encourage you to leave your feedback and rate this course so that we can continue to improve our content.

Good luck!
